Hi Ellen & John,

As mentioned in our Ambler 404 comment letter, we noticed several concerns with the wetland delineation forms filled out for the Ambler road project in 2012 and 2013. Here are our notes on the errors that we found, as well as the data forms that we were looking at, to be clear of which data we reviewed.

To us, the 2012 forms were more concerning than the 2013 forms. But of course, we only reviewed ~88 forms in the 2013 data and never got a chance to look at the remaining 364 forms (of the total 452 forms) from 2013. We reviewed all of the attached 2012 data.

Let us know if you have any questions on our comments or review!

-Amy
